

Proven Results: Testimonials

Interstate Aviation, Inc, Plainville, CT is a full service FBO, and has been advertising with AeroTrader.com for several years. Since our initial contact with AeroTrader.com, we have found the entire staff very helpful and friendly with the month to month operation. We find AeroTrader.com's Inventory Maintenance Tool software accurate, easy, and convenient to use when making changes and updates to the "Aircraft for Sale" listings.

Mr. Jerry Strunk President of Midwest Aviation said the following when he was asked by Michael Gilead, inside Aero Trader sales rep, to sign a contract and receive a frequency discount..."Don't take this the wrong way... but my planes don't last long enough in your publication to warrant longer than a 1 month ad. The last plane I sold several months ago sold the first day it was online. Aero Trader is the only publication/website I advertise with and I sell my planes within the first month I advertise them with you."

Blue Side Up Aviation, Inc. has been using AeroTrader.com for several years now for advertising our Aircraft Inventory for sale. We've been so pleased with the feedback from both the customers and staff at Aero Trader that we now have them hosting our company website www.bsuaviation.com.

We've used pay-per-click and other online advertising, but AeroTrader.com continues to bring us more traffic and a lower price for our target aviation market.

I just want to thank your publication for making the sale of 3 planes in the last 6 months. Your ad placement program on the net is easy and quick. The pictures in your publication sells planes quickly along with the internet back up with pics. Your staff is also extremely helpful and prices are more than fair. Thanks again.

I was completely satisfied with the service I got using aerotrader. Within a matter of days of having my aircraft pictured on line it was sold. I had more calls within the first three days of advertising than I did the entire 24 days it was listed on E-Bay. I would not hesitate to use Aerotrader next time I sell an aircraft. Thank you for all your help.

Prior to Aero Trader, I had my aircraft listed in three other locations, two on-line adds and one printed publication with no results. I had my aircraft listed in Aero Trader for almost two months before I received my first call on the add. I would have dropped the add if it wasn't for your calm voice reassuring me that it might take a little time and a little drop in Trader Media Confidential Page 6 Printed on: 10/15/2007 the price to make it look more inviting. You also suggested that I increase the size of the add which I did. The third month brought in two to three calls a day and resulted it a sale. Even though I was sad to see my airplane go, Aero Trader, with your help, got the results that I needed. Thanks again.
